Office Action Summary

Art Unit: 1754

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 1 is rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over DE '565.

The EB 111 material has the claimed H content, and may possess a ratio of as low as 1.1711 based upon the errors of the reported values of specification pg. 8 (65/55.5).

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over DE '565 taken with Rositani.

The reference does not discuss electrocatalysts, however Rositani suggests this use for suitable carbon blacks on pg. 330. As '565 has a suitable amount of H and acid peaks, using it as a conductive material is an obvious expedient.

Applicant's arguments with respect to claims 1 and 6 have been considered but are moot in view of the new ground(s) of rejection.

It is noted that applicants have failed to provide copies of the references cited, including those on specification pg. 6. Claim 6 is not limited to 80% carbon black, nor to voltages, voltage drops, etc.

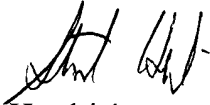

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1754

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
